

Aaronsen Group, Ltd.

1122 East Pike S.
Suite #1215
Seattle, WA 98104

November 20, 2012

To Whom It May Concern:

Łukasz Strzygowski has been contracting as a software engineer for the Aaronsen Group, Ltd., from October 2011 until presently. During this time, he reported directly to me.

Łukasz was responsible for design and development of a financial desktop application for our client, Morgan Stanley Smith Barney. He proved to be a very conscientious and competent developer, tackling new problems and new systems easily. He's also clearly able to deal with any software technology.

I would recommend Łukasz highly for any software development position, and think he would be an asset on any team.

Sincerely,

Doug Luce
Lead, Financial Sector
Aaronsen Group, Ltd.
